INDEPENDENT AUDITORS' REPORT

To the Members of Hardscrabble Trading LLC

We have audited the accompanying statement of financial condition of Hardscrabble Trading LLC (the "Company"), including the condensed schedule of investments, as of December 31, 2006. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

As discussed in Note 6 to the financial statements, the Company is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") and is also considered to be an investment company under accounting principles generally accepted in the United States of America. As such, the Company is subject to certain disclosure requirements that would otherwise not be required of a broker-dealer. The Company's management has elected to omit the disclosure of the cost of securities owned and the proceeds of securities sold short, as are currently required for investment companies under accounting principles generally accepted in the United States of America.

In our opinion, except for the matters discussed in the preceding paragraph, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Hardscrabble Trading LLC as of December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

HARDSCRABBLE TRADING LLC

NOTES TO FINANCIAL STATEMENTS

1. Nature of operations and summary of significant accounting policies

Nature of Operations

Hardscrabble Trading LLC (the "Company"), a New York limited liability company, is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of and is regulated by NYSE Arca Equities, Inc. (as successor to the Pacific Exchange, Inc.). The Company was organized for the purpose of trading in listed securities and options for its own account. The majority owner of the Company is The Market Neutral Fund, L.P. ("Market Neutral"). The Company's Managing Member is Gruber/Gray LLC.

Valuation of Securities Owned and Securities Sold Short

The Company values its securities owned and securities sold short that are freely tradable and are listed on a national securities exchange at their last sales price as of the last business day of the period.

Investment Transactions and Related Investment Income

Investment transactions are accounted for on a trade-date basis. Dividend income and dividends paid on short sales are recorded on the ex-dividend date and interest is recognized on the accrual basis. Net gain (loss) from trading in securities consists primarily of net realized gain (loss) because of the Company's active trading style.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

Income Taxes

The Company does not record a provision for income taxes since the individual members report their share of the Company's income or loss on their income tax returns.

2. Net capital requirements

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn if the resulting net capital ratio would exceed 10 to 1. At December 31, 2006, the Company's net capital was approximately \$18,600,000, which was approximately \$18,500,000 in excess of its minimum requirement of \$100,000.

HARDSCRABBLE TRADING LLC

NOTES TO FINANCIAL STATEMENTS

3. Exemption from Rule 15c3-3

The Company is exempt from the SEC Rule 15c3-3 pursuant to the exemptive provision under sub-paragraph (k)(2) (i) and, therefore, is not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of customers".

4. Concentration of credit risk

The Company conducts business with its clearing broker for its own trading activities. The clearing and depository operations for the Company's trading activities are performed by its clearing broker pursuant to a clearance agreement. The securities owned, securities sold short and the due from clearing broker reflected on the statement of financial condition are positions with and amounts pursuant to this clearance agreement.

Amounts due from clearing broker may be restricted to the extent that they serve as deposits for securities sold short.

The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. Management monitors the financial condition of such brokers and does not anticipate any losses from these counterparties.

5. Securities sold short

The Company is subject to certain inherent risks arising from its investing activities of selling securities short. The ultimate cost to the Company to acquire these securities may exceed the liability reflected in these financial statements. The Company is not exposed to this risk to the extent it holds offsetting long positions which were approximately \$1,096,000 at December 31, 2006.

6. Condensed schedule of investments and disclosure of financial highlights

The Company is a broker-dealer registered with the SEC and is also considered to be an investment company under accounting principles generally accepted in the United States of America. As such, the Company is subject to certain disclosure requirements that would otherwise not be required of a broker-dealer. The Company's management has elected to omit the disclosure of the cost of securities owned and the proceeds of securities sold short in the condensed schedule of investments and the disclosure of financial highlights, both of which are required for investment companies in accordance with accounting principles generally accepted in the United States of America.

7. Related party transactions

In accordance with an Operating and License Agreement, all operating expenses, except for fees paid to NYSE Arca Equities, Inc., and services of the Company are provided by Gruber, Gray & Company, Inc. at the sole expense of the Managing Member.

END
